1 QUICK SETUP

This guide outlines the quick installation procedure for the Novalnet payment module with your system and explains how to start accepting payments worldwide. For this integration, a Novalnet merchant account is required to accept Novalnet payments. Please ensure that you have received your merchant account details from our sales team. If not, drop an email to sales@novalnet.de

This Novalnet payment module version (1.2.0) supports the following versions of the Dolibarr system:

To get started:

1. Log in to the [Novalnet Admin Portal](#) with your merchant account details (user credentials).
2. Log in to your Dolibarr system.
3. Make sure that you have extracted the payment module package from the zip file you have received.

1.1 Module Installation

To install the Novalnet Payment Module, please go to your dolibarr admin panel and follow the steps below,

Step 1: Navigate to **Setup** → **Modules/Applications** in your admin panel as shown below.

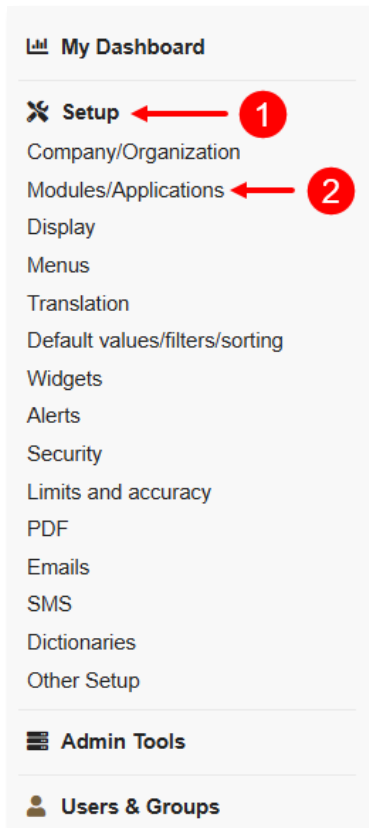

Figure 1

Step 2: Click **Choose File** and select the **module_novalnet-1.2.0** file included in the Novalnet dolibarr module package, and click **Open** as shown below,

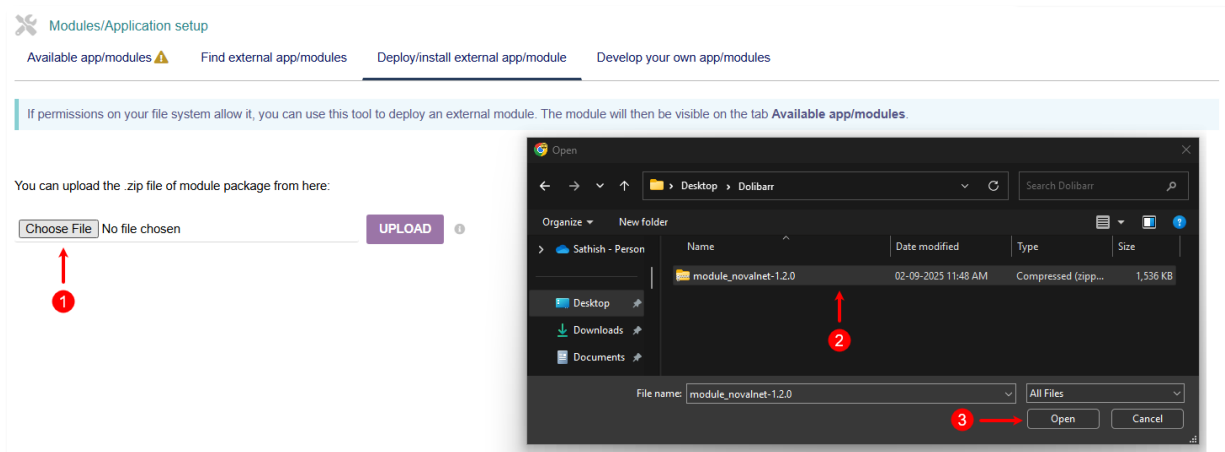

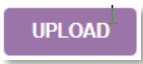

Figure 2

Then click  to upload the Novalnet payment module.

Step 3: Once uploaded, the **Novalnet Payment** module will be shown under the tab **Available app/modules** as shown below.

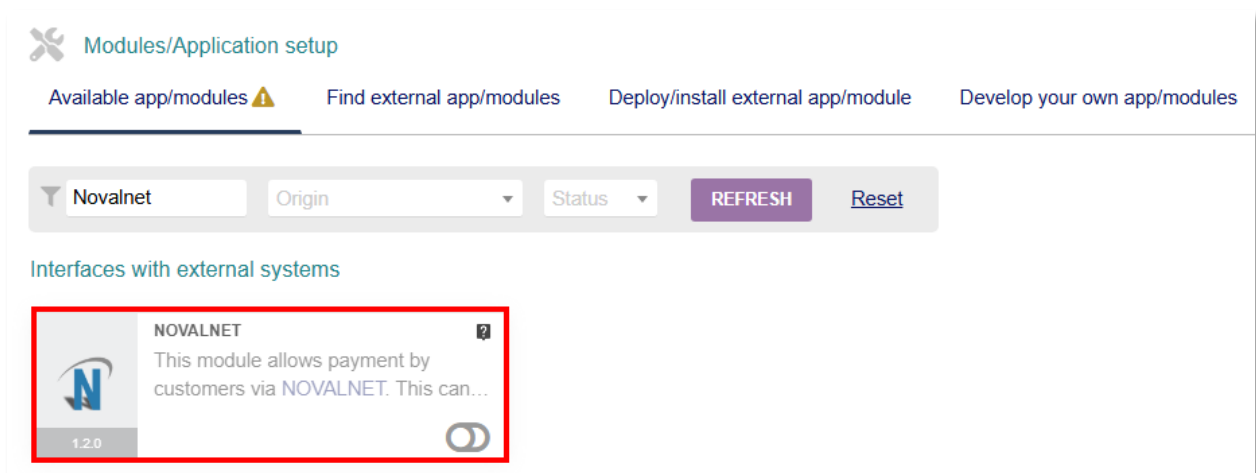

Figure 3

Click  to activate the **NOVALNET** module.

1.2 Upgrading the Novalnet payment plugin

You can get the updated plugin either directly from the [Dolistore](#) or by contacting our [technical team](#)

To upgrade the latest Novalnet payment module from the [Dolibarr Store](#), please follow the steps below.

Step 1: It is recommended to take a proper backup before deleting the existing Novalnet payment module for disaster recovery.

Step 2: Upload the **novalnet** folder into the following path **<shop root path>/custom/** as shown below.

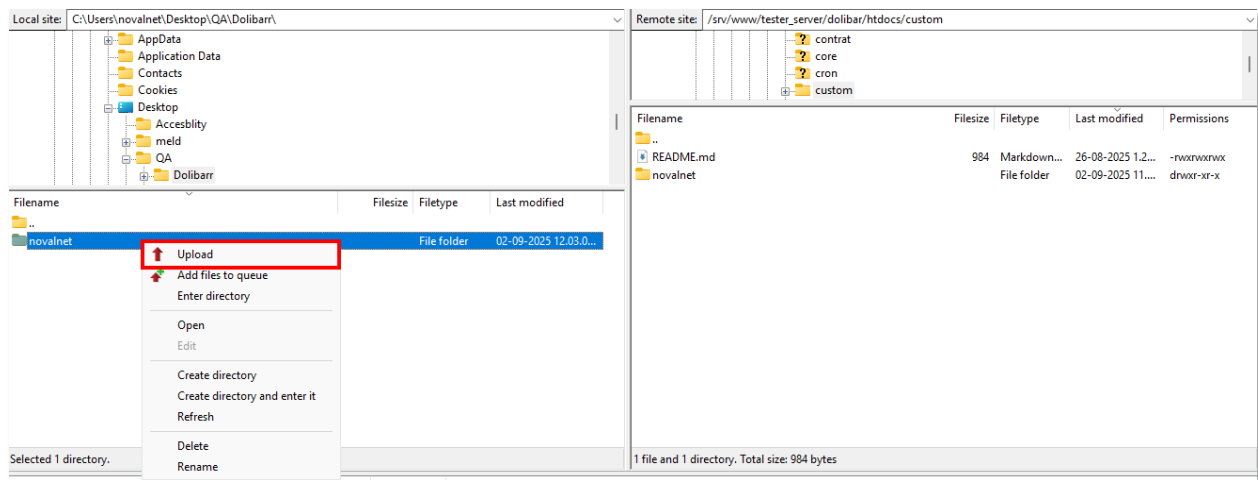

Figure 4

1.3 Global Configuration in the Dolibarr Systems

The main configuration occurs in your Dolibarr system and the [Novalnet Admin Portal](#).

In your Dolibarr admin panel, navigate to **Setup** → **Modules/Applications** → **Available app/modules**

search for **Novalnet** and Click  as shown below,

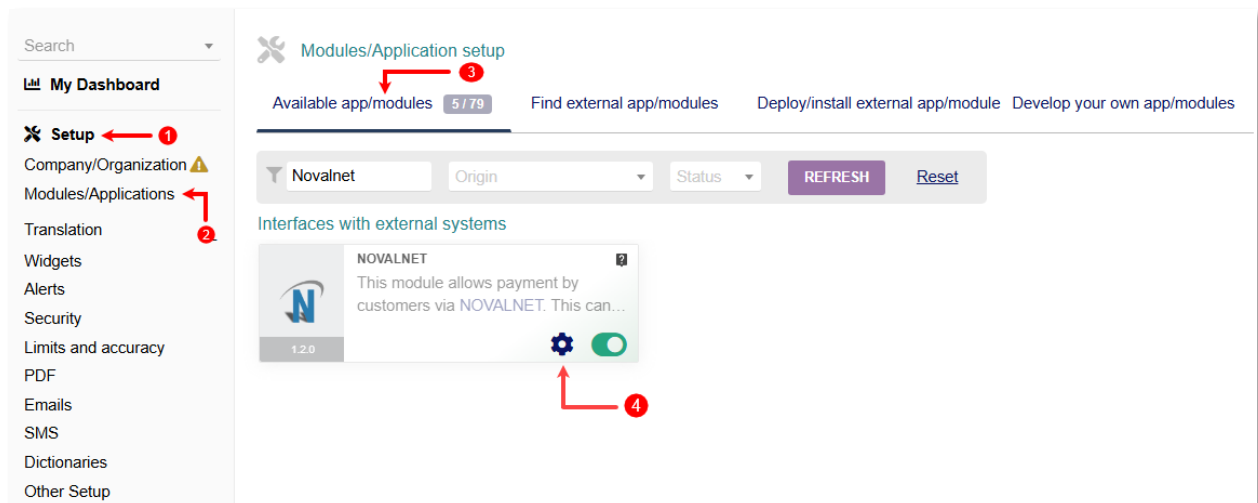

Figure 5

Next, you will be forwarded to the Global Configuration page to enter the following keys in Novalnet API Configuration:

- 🔑 **Product Activation Key** - a unique token for merchant authentication and payment processing.
- 🔑 **Payment Access Key** - a secret key assigned to each merchant that encrypts the data to avoid user manipulation and fraud.
- 🔑 **Tariff ID** - a unique identifier created based on the tariff type at Novalnet.

Figure 6

To obtain your **Product Activation Key** and **Payment Access Key**, navigate to the Novalnet Admin Portal, select the **Projects** menu, and choose your project as shown below.

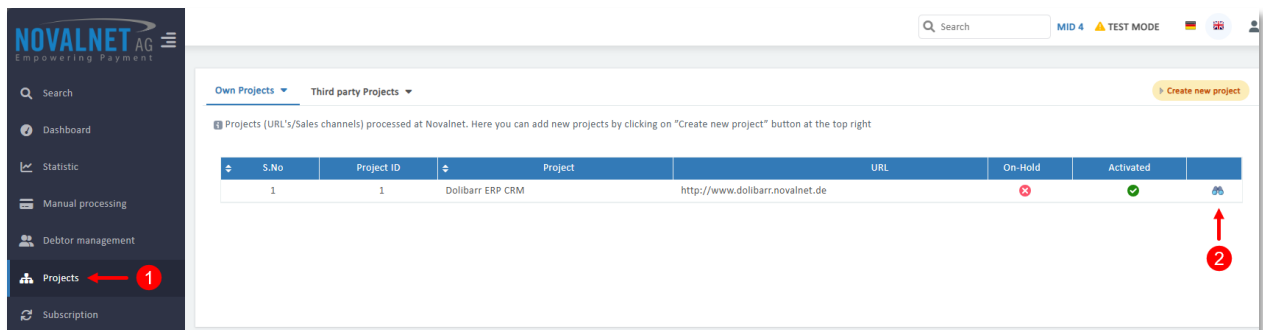

Figure 7

Click **API credentials**, and copy the **API Signature (Product activation key)** and **Payment access key**.

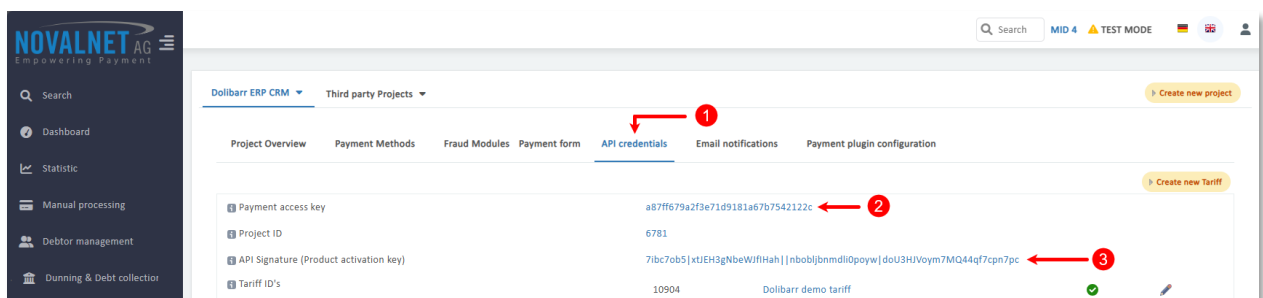

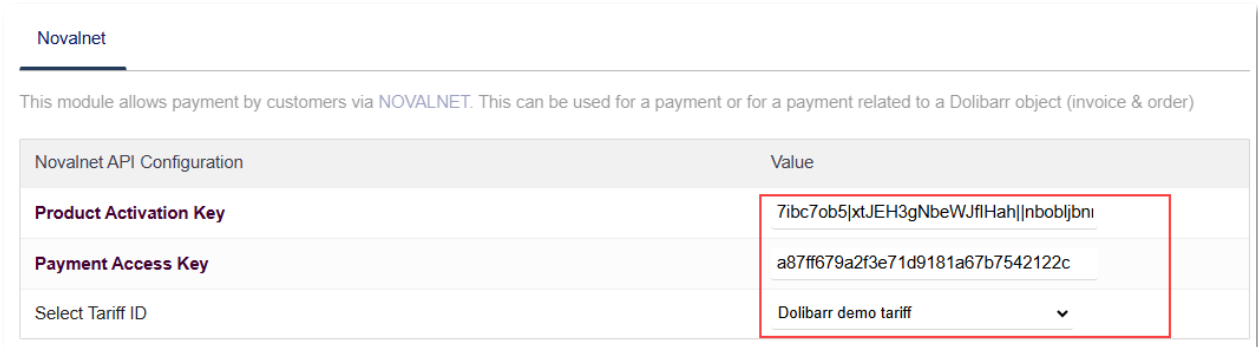

Figure 8

Paste the **Product Activation** and **Payment Access** key in the respective fields in your shop admin panel. Next, choose the Tariff ID from the **Select Tariff ID** drop-down menu you have created at the [Novalnet Admin Portal](#).

Novalnet API Configuration	Value
Product Activation Key	71bc70b5 xtJEH3gNbeWJfHah Inbobjbni
Payment Access Key	a87ff679a2f3e71d9181a67b7542122c
Select Tariff ID	Dolibarr demo tariff

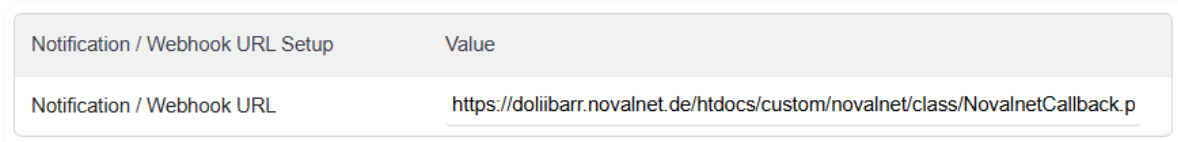

Figure 9

MODIFY

Then click **MODIFY** to save the changes.

1.3.1 Notification/Webhook Configuration in the Novalnet Admin Portal

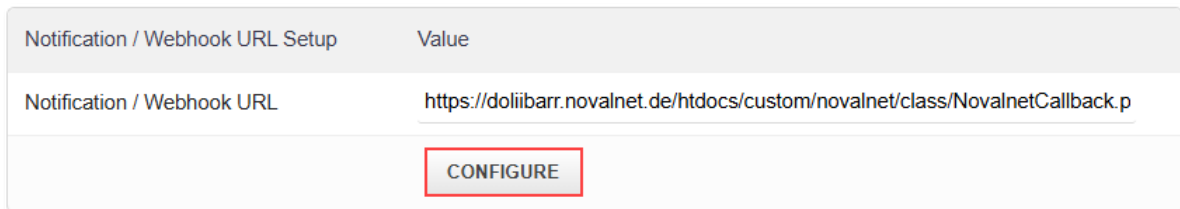

In the **Novalnet Webhook Configuration**, you will find your **Notification / Webhook URL**, as shown below.

Notification / Webhook URL Setup	Value
Notification / Webhook URL	https://doliibarr.novalnet.de/htdocs/custom/novalnet/class/NovalnetCallback.p

Figure 10

Click **CONFIGURE** to set up your **Notification / Webhook URL** in the [Novalnet Admin Portal](#).

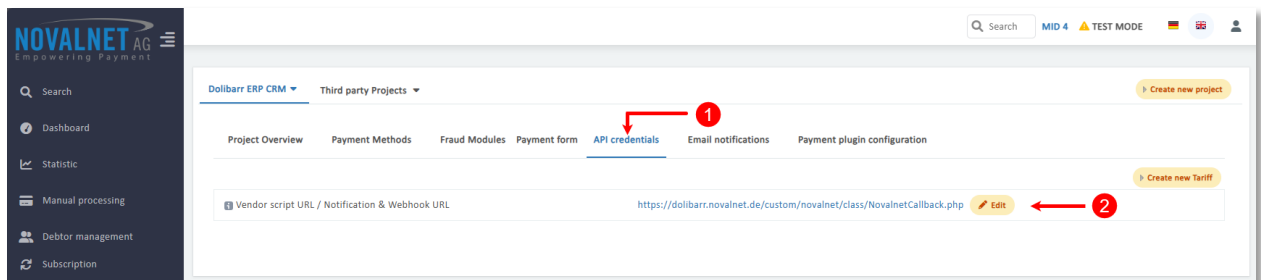

Notification / Webhook URL Setup	Value
Notification / Webhook URL	https://doliibarr.novalnet.de/htdocs/custom/novalnet/class/NovalnetCallback.p

CONFIGURE

Figure 11

After successful configuration, your shop's **Notification / Webhook URL** will be linked with your Novalnet Merchant account, which can be seen under the **Vendor script URL/ Notification & Webhook URL** field of your project, as shown below.

NOVALNET AG
Payment Institution
Gutenbergstr. 7

Tel.: +49 89 9230683-19
Fax: +49 89 9230683-11
E-Mail: technic@novalnet.de
Tax id: DE254954139

Board of Directors: Gabriel Dixon (CEO), Johnson Rajdaniel (CFO)
Chairman of the supervisory Board: Frank Haussmann
Commercial register number: HRB 167381

Figure 12

In your system, you can also manually test the Webhook URL and send notification emails to the specific email address mentioned here.

Notification / Webhook URL Setup	Value
Notification / Webhook URL	https://doliibarr.novalnet.de/htdocs/custom/novалnet/class/NovalnetCallback.p
CONFIGURE	
Allow manual testing of Notification / Webhook URL	No ▾
Send e-mail to	Example: myemail@myserver.com

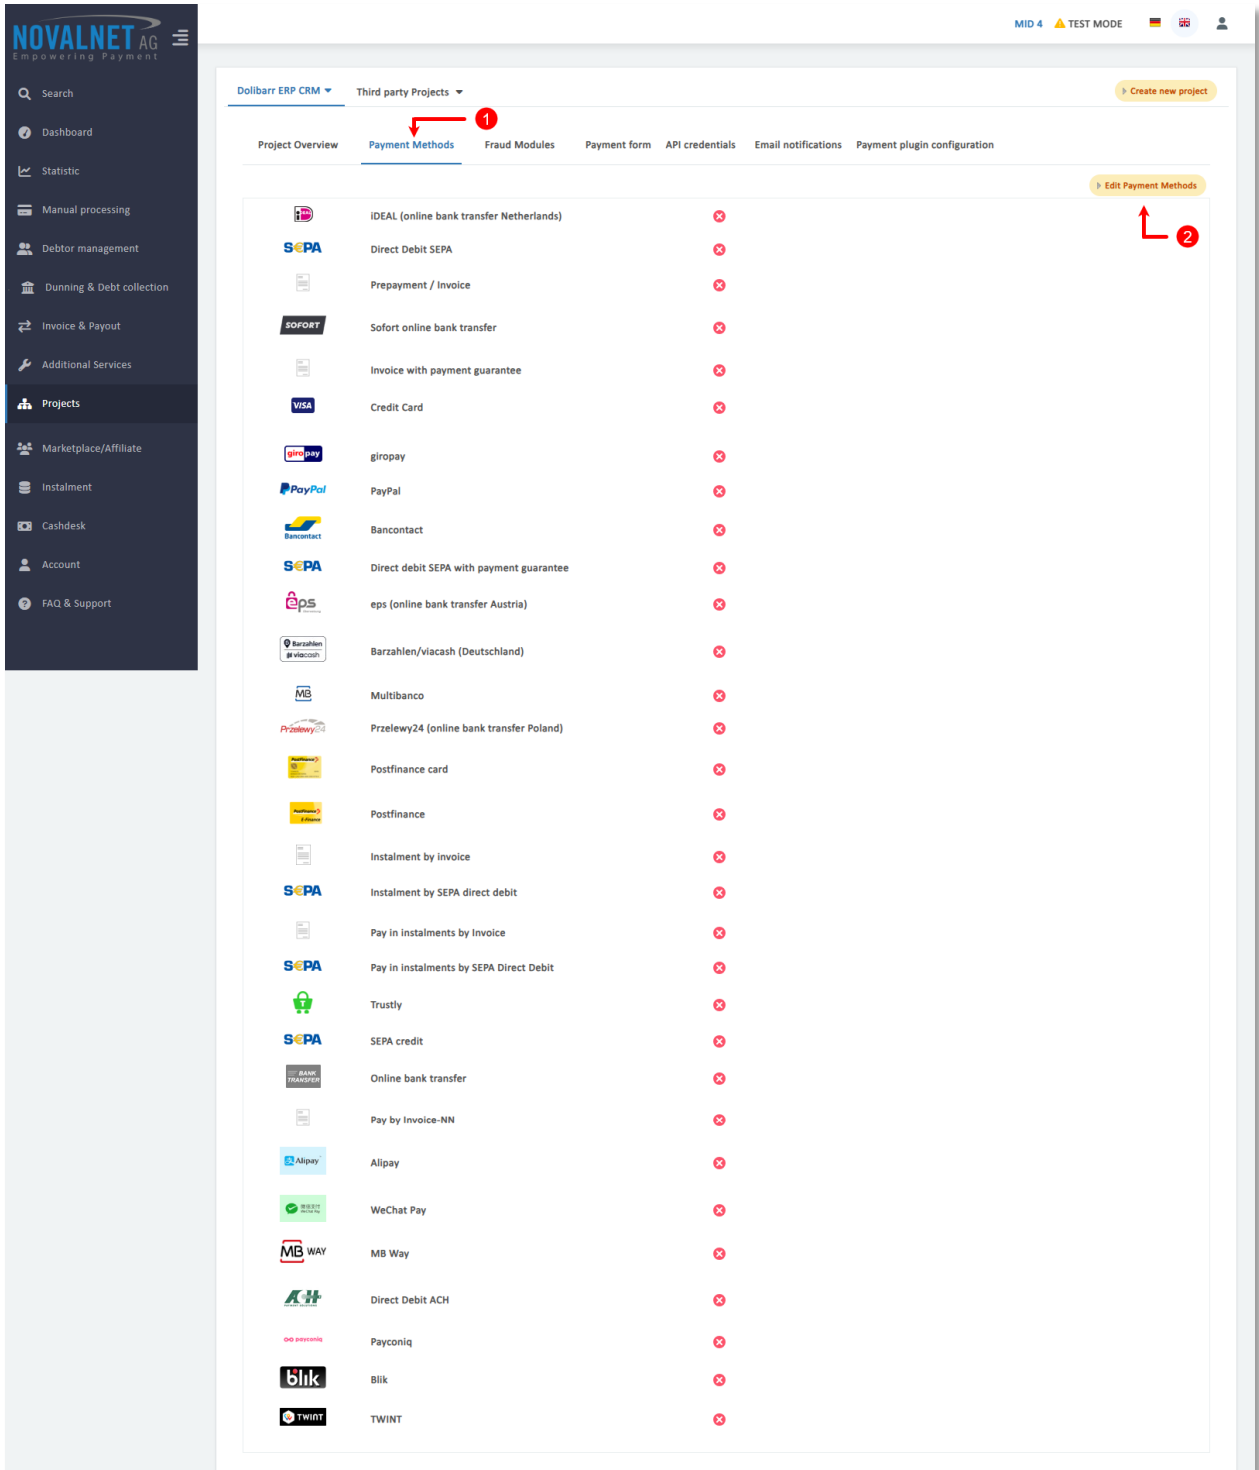

Figure 13

- 👉 **Notification / Webhook URL** - Required to keep the merchant's database/system updated and synchronized with Novalnet (for example, up-to-date transaction status delivery).
- 👉 **Allow manual testing of the Notification / Webhook URL** - Enable this to manually test the Novalnet Notification / Webhook URL. Disable this before setting your shop system live to block unauthorized API calls from external parties.
- 👉 **Send e-mail to** - Every execution will be sent as a message to the e-mail address defined in this field.

1.4 Payment Activation in the Novalnet Admin Portal

All the Novalnet-supported payment methods can be viewed here: www.novalnet.com/payment. If you have any questions related to the payment methods or have additional payment method requests, please contact sales@novалnet.de

To activate the [preferred payment methods](#) for your website, navigate to [Novalnet Admin Portal](#) → **Projects** → choose your project → **Payment Methods** → click **Edit Payment Methods** in the top right corner as shown below.

The screenshot displays the Novalnet Admin Portal interface. On the left is a sidebar with various navigation options. The main content area is titled 'Third party Projects' and contains a tabbed interface. The 'Payment Methods' tab is selected, showing a list of payment methods. Each method has a logo, a name, and a status indicator (a red 'x' in a circle). A red arrow points to the 'Payment Methods' tab, and another red arrow points to the 'Edit Payment Methods' button in the top right corner.

Payment Method	Status

Figure 14

Next, select the preferred payment methods and click **Update** to activate them, as shown below.

The screenshot displays the 'Payment Methods' configuration interface within the NOVALNET AG system. The interface includes a sidebar with navigation options and a main content area with tabs for 'Project Overview', 'Payment Methods', 'Fraud Modules', 'Payment form', 'API credentials', 'Email notifications', and 'Payment plugin configuration'. The 'Payment Methods' tab is active, showing a list of payment methods with checkboxes for selection. A red box highlights the 'Update' button at the bottom left of the list.

Update

Figure 15

1.5 Payment Configuration in the Novalnet Admin Portal

For additional payment configuration settings for each payment method, navigate to [Novalnet Admin Portal](#) → **Projects** → {choose your project} → **Payment module configuration** on the right. Then, choose the required payment methods, configure the additional payment settings, and save the changes made.

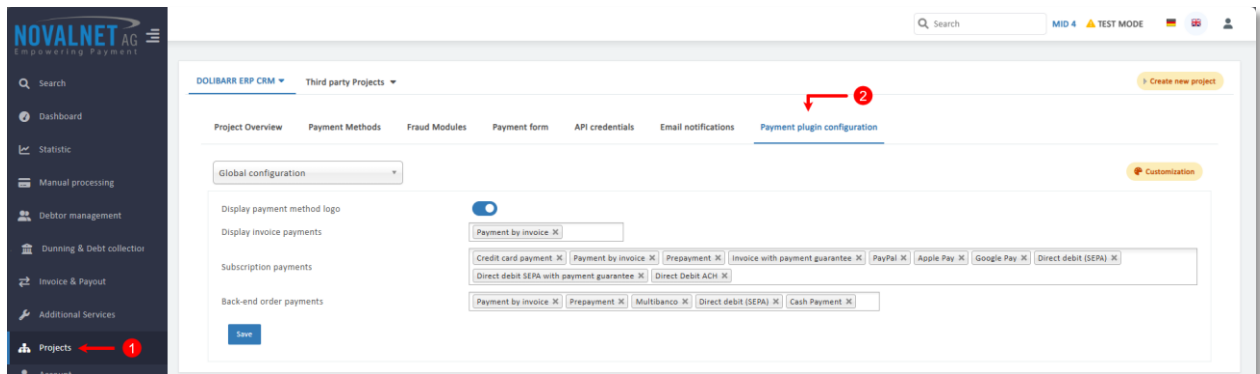

Figure 16

1.5.1 Display payment method logo

By enabling this option, all payment logos will be displayed on the checkout page.

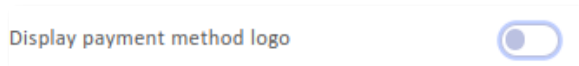

Figure 17

1.5.2 Display invoice payments

☛ This option is available only for **Payment by invoice** and **Prepayment** methods:

The payment name will be displayed on the checkout page by enabling these payments.

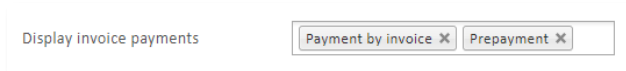

Figure 18

Refer to Chapter [3 ADDITIONAL CONFIGURATION](#) for more payment configurations.

☛ If you have any recommendations or suggestions for improvement, kindly share your thoughts on further developing our payment module at technic@novalnet.de or call us at +49 89 9230683-19.

2 TESTING AND GOING LIVE

Execute test transactions by navigating to [Novalnet Admin Portal](#) → **Projects** → {choose your project} → **Payment module configuration**. Select the preferred payment methods and enable the **Test mode**. In the test mode, the transaction amount will not be charged by Novalnet.

Figure 19

- ☛ Refer to the URL below for the Novalnet test payment data for testing:

<https://developer.novalnet.com/testing/>

Execute orders in LIVE MODE

To proceed with **LIVE** orders, don't forget to disable the **Test Mode** for the preferred payment methods in the [Novalnet Admin Portal](#).

- ☛ If you have any recommendations or suggestions for improvement, kindly share your thoughts on further developing our payment module at technic@novalnet.de or call us at +49 89 9230683-19.
- ☛ Are you happy with our service and support? Please spend a few minutes sharing your success [here](#).

3 ADDITIONAL CONFIGURATION

3.1 Additional configuration for all the payment methods

For additional payment configuration settings for each payment method, navigate to [Novalnet Admin Portal](#) → **Projects** → {choose your project} → **Payment module configuration** in the top right corner. Then, choose the payment methods and configure additional payment settings, as explained below.

Payment due date (in days)

Payment due date (in days) refers to the duration (number of days) given for the buyer to complete the payment. The payment process and duration may differ for each payment method.

- ☛ *This option is available only for the following payment methods:*

Direct Debit SEPA, Payment by Invoice, Prepayment, and Barzahlen/viacash.

Figure 20

- ☛ For **Direct Debit SEPA**, enter the days after the payment is debited (between 3 and 14 days)
- ☛ For **Payment by Invoice**, enter the number of days the buyer gives to transfer the amount to Novalnet (must be greater than 7 days). If this field is blank, 14 days will be set by default.
- ☛ For **Prepayment**, enter the number of days the buyer gives to transfer the amount to Novalnet (must be greater than 7 days). If this field is blank, 14 days will be set by default.
- ☛ For **Barzahlen/viacash**, enter the number of days given to the buyer to pay at a nearby store. If this field is blank, 14 days will be set by default for slip expiry.

Payment Action (Debit immediately / Reserve funds for later)

You can choose between two options - **Capture** and **Authorize**, which are both explained below.

☛ *This option is available only for the following payment methods:*

Credit Card, Direct Debit SEPA, Direct debit SEPA with payment guarantee, Instalment by SEPA direct debit, Payment by Invoice, Invoice with payment guarantee, Instalment by invoice, PayPal, Direct debit ACH

Capture - This is the default setting where payments are directly executed, and funds are automatically transferred from the buyer's account to the merchant account. This can be changed as per your business requirements.

Figure 21

☛ **Authorize** - Payment details are verified while the funds are reserved, which will be captured later.

Figure 22

☛ **Minimum transaction amount for authorization** - Transactions from this amount will be “authorized” (reserved) only and captured later. Leave the field blank to authorize all transactions.

Figure 23

Minimum Order Amount

☛ *This option is available for all payment methods.*

Enter the minimum value of goods for which the payment method will be displayed to the customer during checkout.

Figure 24

Maximum Order Amount

☛ *This option is available for all payment methods.*

Enter the maximum value of goods for which the payment method will be displayed to the customer during checkout.

Figure 25

Guarantee payment configuration

☛ *This option is available only for **Direct Debit SEPA with payment guarantee** and **Invoice with payment guarantee**.*

When the basic requirements are met, Novalnet offers you the option to process payments as guarantee payments. For more information about guaranteed payments and basic requirements, please visit:

<https://developer.novalnet.com/onlinepayments/aboutguarantee#basic-requirements>

Force Non-Guarantee payment

Enable this option to process payments as non-guarantee payments when the guarantee conditions are not met.

Figure 26

Allow B2B Customers

☛ This option is available only for **Direct Debit SEPA with payment guarantee, Invoice with payment guarantee, Instalment by Direct Debit SEPA, and Instalment by Invoice.**

Enabling this option will allow B2B buyers in your shop system.

Figure 27

Allowed currencies

☛ This option is available for all payment methods.

Select the currencies for which the payment methods can be processed.

Figure 28

Allowed countries

☛ This option is available for all payment methods.

Select the countries to which the payment method is applicable to be displayed on the checkout page.

Figure 29

Allowed countries (B2B)

☛ This option is available for below payment methods:

Direct debit SEPA with payment guarantee, Invoice with payment guarantee, Instalment by Direct Debit SEPA, and Instalment by invoice.

Select the countries where payment methods should be displayed on the checkout page for B2B categories.

Figure 30

Allowed countries (B2C)

☛ This option is available only for the following payment methods:

Direct debit SEPA with payment guarantee, Invoice with payment guarantee, Instalment by Direct Debit SEPA, and Instalment by invoice.

Select the countries where payment methods should be displayed on the checkout page for B2C categories.

Figure 31

3.2 Additional Configuration for Credit/Debit Cards

Enforce 3D secure on payment outside EU

This option will authenticate all payments from cards issued outside the EU via 3DS 2.0 SCA.

Figure 32

Important Note

- 👉 **Mandatory Customer Details:** Please note that Novalnet requires customer details to be provided during the payment process. This is a mandatory requirement for the payment integration to function properly. For example, First Name, Last Name, Address, City, Country, Zip etc.,
- 👉 **Customization Support:** If you need assistance with customizing how customer details are collected or displayed, feel free to contact us at support@novalnet.de for support.
